Say what!?

When I was 13 to 14, I use to make levels for **Dr. Lunatic Supreme With Cheese**.

By doing a quick internet search and some hunting, you can find my old levels.

They are as followed:

1. *Angelo's Pizza (6-21-2004)*
2. *Lakeshore Park (7-23-2004)*
3. *Summer Silliness (7-23-2004)*
4. *dull (8-16-2004)*
5. *Angelo's Pizza: Party Edition (8-30-2004)*
6. *It's a Mutant World (1-03-2005)*
7. ...There's also a Halloween Horror level I made too. But I forget which “pack” it is in.

But the real horror story is the game who made the game.

Mike Hommel is a pushover. He banned me from his forum back in 2005 when I said "FUUCKKKK YOOUUUU" to a user who was condescending against my levels. I never looked back at Hamumu Software since.

Forums? In 2005? Yeah, I was shitposting then too. And swearing was criminal.

Last time I checked on Hommel, he seems to be married to a fat ugly chick and they are both self-hating white people from a nice SWPL neighborhood in Texas.

Does it get worse?

He advocates pronouns and goes by He/Him.

"He's" also about **DEFUNDING THE POLICE** and **BLACK LIVES MATTER**.

Now talk about wanting to the cool liberal kid!

Yeah, this guy is a joke. It's sad white people are like this.

Cringe.

...But anyway, I was able to find two links that archived my old levels:
